

Go! London Funding Award!

The Pirate Castle is proud to be a part of Go! London.

In the first round of the Go! London Foundation Pillar, we'll join other grantees to support nearly 18,000 young Londoners through physical activity and sport!

From improving our young people's physical, mental and social wellbeing to equipping them with skills to improve their prospects, we see first-hand how physical activity and sport can have a transformative effect on young lives.

With support from the Go! London Partnership – made up of the Mayor of London, Sport England, the London Marathon Foundation and London Sport - we're delighted to be opening up more opportunities for young Londoners to access kayaking and canoeing in the heart of Camden Town over the next 12 months!
